INTRODUCTION

This bibliography is an update of information submitted by each of the nine regional deaf-blind centers. Information regarding omissions should be directed to the attention of the project director, Southwestern Region Deaf-Blind Center; and new publications should be sent routinely to the regional office to be included in subsequent bibliographies.

The information is presented in two sections: first, each region is identified, and its publications are listed alphabetically. The second section includes a listing of all publications alphabetized by author.

Articles published previously in professional journals are not included.
